Ensemble Delete Individual Rules and Ensemble classes programmatically

Hi Team,

I have a requirement to delete the Ensemble interfaces , as per User request. I would like to write a routine for that and once I execute, it should remove the interface components through code.
Could you please provide code samples for the following actions ?

- Deleting an individual rule from a rule class
- Deleting a class from Ensemble
- Deleting a Host (Service/Operation/Process) from the Production.

Appreciate the help.

Thanks,

Purushothaman.T

#Code Snippet #Caché #Ensemble
Product version: Ensemble 2017.1
$ZV: Cache for UNIX (Red Hat Enterprise Linux for x86-64) 2017.1.3 (Build 317O18252U)
