

Question  
[Brian Schoen](#) · May 14, 2021

## Category (drop-down) out of sync from Production.Config page to Production Monitor page

We use the Category drop-down for other IT analysts to quickly see interfaces related to their application/group. This dropdown fails to work (IDs get out of sync with Config Item IDs) if the Production is compiled. There is no fix available (development was started, but stopped in favor of other items).

Has anyone else run into this issue? Any custom work-arounds?

Example:

### Production Configuration

Start

Stop

Refresh: ☐ on ☒ off

Production Running

Services

- FromEpic410ORM
- FromMuseORU
- FromMusePDF

Category: EKG

Processes

- RouteEkg

Legend

Production Settings

Operations

- ToEpic313EkgORU
- ToReidEfmORU
- ToReidEkgORM

Interoperability > Production Monitor

Category: EKG Sort by: Number

396 items (1 errors) not in this category

INCOMING CONNECTIONS

Last Activity: 2021-05-14 13:13:13.085 Completed: 66,777,409

OUTGOING CONNECTIONS

Last Activity: 2021-05-14 13:13:13.134 Completed: 120,770,374 In Progress: 1

Thanks.
