Cannot delete an Instance of HealthShare

I need assistance to delete an instance of HealthShare that I am sure it way out of date. From the VM Server Control Panel when I try to Uninstall, I get the error Message: "Error: Could not detect INSTANCE name!"

Are there commands in SQL that may help uninstall the instance of the application? Other Suggestions?

#Error Handling #Microsoft Windows Server #HealthShare
Product version: HealthShare 2016.1
$ZV: 1.00.0000
