Video: Getting Started with IntegratedML

Hi Community,

Please welcome the new video on [InterSystems Developers YouTube](#):

[Getting Started with IntegratedML](#)

Learn about IntegratedML, a new feature of InterSystems IRIS data platform that gives developers and analysts simple SQL syntax to build and use machine learning models. See how you can do this from within the environment where your data lives.

Presented by [@Thomas Dyar](#), Product Specialist - Machine Learning, InterSystems

To learn more about IntegratedML, check out the [IntegratedML Resource Guide](#).

Enjoy watching this video!
