File error

Getting this error:

```
ERROR <Ens>ErrFTPputFailed: FTP: Failed to Put file 'TestsDaily.xlsx.xlsx'  
(msg='Error in SFTP Put('/Reporting/reports/Daily-Weekly/TestsDaily/To Be  
Processed/TestsDaily.xlsx','/TestsDaily.xlsx.xlsx')  
ERROR #7500: SSH Put Error '-2147024894': The system cannot find the file specified. [80070002]',code=0)
```

is this due to the file extension? Also, if its just because the file isn't there, how to fix that?
