## Video: Automating InterSystems IRIS Instances Configuration

Hi Community,

Please welcome the new video on [InterSystems Developers YouTube](#):

[Automating InterSystems IRIS Instances Configuration](#)

Learn how the CPF merge facility allows you to define, in an easy and declarative way, the ultimate state of an InterSystems IRIS data platform instance. This solution allows you to embrace cloud-native, GitOps-like configuration operations.

Presenter: [@Luca Ravazzolo](#), InterSystems Product Manager

Additional materials to this video you can find in this [InterSystems Online Learning Course](#).

Enjoy watching this video!
