Webinar: What's New in InterSystems IRIS 2021.1

Hey Developers,

We're pleased to invite you to the upcoming InterSystems webinar called "What's New in InterSystems IRIS 2021.1 "!

Date: Thursday, June 17, 2021
Time: 11:00 AM EDT

In this webinar, we'll highlight some of the new capabilities of InterSystems IRIS and InterSystems IRIS for Health, version 2021.1:

- analytics, introducing a new optional add-on component, InterSystems IRIS® Adaptive Analytics, that enables a common virtual data model and allows business users to explore and analyze data using their BI tool of choice (including Microsoft Excel!)
- development, including more freedom of choice for developing in your language of choice, both server-side and client-side
- deployment and operations, including the InterSystems Kubernetes Operator
- interoperability, including the InterSystems API Manager 1.5
- FHIR, including FHIRPath, FHIR Profiles, and more

There will be time for Q&A at the end.

Speakers:
@ Benjamin De Boe, Product Manager, InterSystems
@ Joe Lichtenberg, Director of Product & Industry Marketing, InterSystems
@ Carmen Logue, Product Manager, Analytics & AI, InterSystems
