Video: Installing InterSystems API Manager

Hi Community,

Enjoy watching the new video on [InterSystems Developers YouTube](#):

[Installing InterSystems API Manager](#)

See the installation process for InterSystems API Manager 1.5. Learn how to prepare an InterSystems IRIS database platform instance and host system, and see how to run scripts provided in the API Manager installation kit.

Related chapters in InterSystems Documentation:

- [Installation instructions: IAM Guide](#)
- [Configuring secure connections: Using TLS with InterSystems IRIS](#)

In this video:

- Preparing an InterSystems IRIS instance
- Preparing a host system for API Manager
- Running API Manager setup scripts
- Testing and viewing the Admin Portal

Enjoy and stay tuned!
