ifexpression syntax

What is the correct syntax when passing values on a zen method after ifexpression?

```
<pagebreak ifexpression="%report.PageBefore('Graph',1)=1"></pagebreak> ????
```

.....

```
Method PageBefore(Table As %String = "", p As %Integer = 0) As %String [ ZenMethod ]
{
if Table="" quit 0
if p {set x=+$g(^||Page("PageFlag",Table,p))}
else {set x=+$g(^||Page("PageFlag",Table))}
if (x=1)|| (x=3) quit 1
quit 0
}
```

This gives me an error "<SYNTAX>zlfCommon+2^%ZEN.Report.Display.controller.1"

I have swapped the double quotes to single but it still errors
