Video: Machine Learning with IntegratedML and Data Robot

Hi Community,

Please welcome the new video on [InterSystems Developers YouTube](#):

[Machine Learning with IntegratedML & Data Robot](#)

Learn about the InterSystems partnership with DataRobot, which combines the market-leading automated machine learning platform of DataRobot with the high-performance InterSystems IRIS data platform to power the next generation of mission-critical applications. See a demo of how these platforms are used to build and deploy a predictive model, and learn about the ease of development and deployment in SQL alongside the power of DataRobot.

Presenter: [@ Thomas Dyar](#), Product Specialist - Machine Learning, InterSystems

To learn more about IntegratedML, don't miss:

- [IntegratedML Resource Guide](#)
- [Getting Started with IntegratedML](#) video

Enjoy!
