Welcome to the InterSystems IRIS Early Access Program: Special Embedded Python Kick-Off Webinar!

Hey Developers,

We have some good news for you:

[InterSystems AI contest](#) participants can use Embedded Python in their solutions! So if you are not yet a member of the [Embedded Python Early Access Program](#) (EAP), now is the time!

Refer to [python-interest@intersystems.com](#) and you'll get FREE access to the InterSystems IRIS Embedded Python features.

In addition, we invite all EAP participants to the special **Embedded Python kick-off webinar** tomorrow, July 6 at 10:00 AM EDT – an easy start on how to use Embedded Python! Demonstration of the new features of the data platform, examples applications, and of course rewards.

After you become an EAP member, you will receive a special link to join the kick-off webinar:

RSVP: [python-interest@intersystems.com](#)

So,

Now any Python developer can easily join the current [InterSystems AI contest](#)!

- Duration: June 28 - July 25, 2021
- Total prize: $8,750

Don't miss it!
