About [@Vic.Sun](#)

Vic made 14 comments on DC, and got the Gold Master of Answers badge for 50 accepted answers on DC – WOW! Thanks for your expert help to the community members.

Company and Job Title: Support Specialist at InterSystems Corporation

"My first big career step after college was joining InterSystems, where I have worked at the Cambridge office for almost 4 years. I am focused on InterSystems' core database technology but have experience with the interoperability engine as well. It has been my pleasure to help our partners succeed, and the same motivation inspired me to get more active within the developer community. Whether you encounter me on a WRC call or on a community posting, I hope that I can make your life a little easier. Note: the community is not an official support channel, so my posts on the community are personal.

I'm from the midwestern United States originally, but I went to college in the greater Boston area and have stayed around since. I have missed traveling dearly and hope to get back to seeing the world once it's safe to do so."
