My Reviews on Open Exchange - August 2021

If one of your packages on OEX receives a review you don't get notified by OEX only on YOUR package. So [@Evgeny Shvarov](#) suggested publishing my monthly summary of reviews here in DC. It reflects my experience with the status I found at the time of my review.

It is kind of a snapshot and might have changed meanwhile.

I also placed a bunch of Pull Requests on Github when I found a problem I could fix.

Some were accepted and merged, some just ignored.

So if you did a major change and expect a changed review just let me know.
