## Link to vote in the contest

If your application is participating in a contest our users will see the button on its profile and will be able to proceed to vote for it on the contest page.

### Contest rewards badges on an app page

When an app wins in the contest we put a badge on the app page and the link for the contest description in which it got the prize.

## Blocks Explorer

Database Blocks Explorer for InterSystems IRIS/Caché

### Key features

#### Tree explorer

- Shows tree of database blocks;
- Export tree as SVG or PNG image;
- Shows every node in the block;
- Open any block just by clicking on node in parent block;
- Reload block info by clicking at the same node second time;
- Zoom in and out, fit and navigator;
- Easy way to switch between view modes (tree/map);

#### Fragmentation map

- Shows every block with the same colour for every globals;
- Legend for globals;

### Run with Docker

You need license key for Caché or IRIS on RedHat systems.

#### Caché

```
docker run -d --name blocksexplorer --rm \
-p 57712:57712 \
-v /opt/some/database/for/test:/opt/blocks/db/test \
-v ~/cache.key:/usr/cacheys/mgr/cache.key \
daimor/blocksexplorer:cache
```

Generate blocks map as image file in `out` directory
