Inbuilt function for convert IEEE 754 to decimal

Hi All,

I have to convert a binary 32-bit IEEE 754 floating point to an decimal representation.

Is there any inbuilt function available in Cache 2015.1 version to convert IEEE 754 floating point to decimal representation?

For Example:

Input:
IEEE 754 value => 0 10000111 10111000000000000000000

Output:
After Converting => 440.0

Thanks,

#Caché
Product version: Caché 2015.1
$ZV: Cache for Windows (x86-64) 2015.1
