## Ens.Director: ERROR <Ens>ErrProductionSuspendedMismatch: Production 'Training.NewProduction' was suspended

Hi,

While starting newly created production I am getting below error:

```
17:14:05.498:Ens.Director: ERROR <Ens>ErrProductionSuspendedMismatch: Production 'Training.NewProduction' was suspended, a new production of a different name can not be started.
```

Please note that I can start and stop 'Training.NewProduction' successfully but still the status of the 'Training.NewProduction' is suspended.

Thanks
