6 Months Reviews on Open Exchange

I'm running reviews on Open Exchange since April 2021.

I have seen excellent packages, good ones, and some that made me feel just lost.

And I started to recognize contributors also by their style and organization of the submitted packages.

Based on these monthly reviews I did some statistics.

Actually, OEX holds 504 packages delivered by 142 contributors

The first table groups by delivered packages and how many contributors fall into this category.
