How to view class details from online labs using studio or VS?

Hi,

I want to view class details by using online Lab

Your InterSystems IRIS Data Platform instance has been launched,

it will run for the next 4 days, 13 hours, 35 minutes.

Management Portal (system configuration, direct SQL access, reporting)
Server Address: 52773-0-052ccdab.labs.learning.intersystems.com/csp/sys/UtilHome.csp
Username: tech
Password: demo

External Connections (including InterSystems Studio)
**InterSystems IRIS IP:** 34.67.32.63
InterSystems IRIS Port: 21844

Atelier (InterSystems Eclipse plugin for server-side development)
Server Address: 52773-0-052ccdab.labs.learning.intersystems.com
Server Web Port: 80

I tried to access with studio, It is connecting successfully buy class list is empty

How can I view the class details ?

Thanks

#Studio #InterSystems IRIS for Health
Product version: IRIS 2021.1
