Video: Introducing the InterSystems IRIS Smart Factory Starter Pack for Manufacturing

Hey Community!

New video is already waiting on [InterSystems Developers YouTube](#):

[Introducing the InterSystems IRIS Smart Factory Starter Pack for Manufacturing](#)

See how InterSystems IRIS® data platform and the Smart Factory Application Starter Pack enable manufacturers to fast-track their smart factory initiatives. The package combines operational technology systems and real-time signals from the shop floor with enterprise IT and analytics systems, enabling manufacturers to improve quality and efficiency, respond faster to events, and predict and avoid problems before they occur.

Presenters:

[@Joe Lichtenberg](#), Director, Product and Industry Marketing, InterSystems

[@Marco den Hartog](#), Chief Technology Officer, IT Visors

Marcel Artz, Chief Information Officer, Vlisco

Enjoy and stay tuned!
