InterSystems IRIS Parquet file support

Hi community,

The parquet file format is the evolution of the CSV file format. See the differences when you process data in the AWS using CSV and Parquet:

Dataset	Size on Amazon S3	Query Run time	Data Scanned	Cost
Data stored as CSV files	1 TB	236 seconds	1.15 TB	\$5.75
Data stored in Apache Parquet format*	130 GB	6.78 seconds	2.51 GB	\$0.01
Savings / Speedup	87% less with Parquet	34x faster	99% less data scanned	99.7% savings

Do you like to have support to parquet files in the InterSystems IRIS?
