Error while starting local IRIS for health instance

Hi,

I am getting below error while starting local IRIS for health instance

irisstart.exe error: pid = 13556

(112)

The service for the IRIS instance did not start.

Consult the Windows NT Application Event Log for details using the Event Viewer application accessible from the Administrative Tools menu.

You may find additional information in IRIS console log (messages.log) in the manager directory.

Instance name = IRISHEALTH

OK

below is the error in windows application event log
