Calling all innovators! Take part in the European Healthcare Hackathon 2021

Hey Developers,

We invite you to take part in the [European Healthcare Hackathon 2021](#) which will take place on November 19-21 2021. Participation is free, the deadline for applications to the ON-LINE track is prolonged until 15 NOV.

We will have an InterSystems challenge there: "Innovate with FHIR". Prize fund in InterSystems track:

1st place: 1500 EUR

2nd place: 1000 EUR

3rd place: 500 EUR

And we prepared prizes for ALL participants of our challenge!

Read the details about our challenge under the pic :) Are you in? Let us know in the poll below!

The poster is framed by two large blue L-shaped brackets on the left and right sides. At the top center, the text "EUROPEAN HEALTHCARE HACKATHON" is written in bold black capital letters. Below this, the dates "19 - 21 NOV 2021 IKEM" are displayed in a smaller bold black font. Two red squares are positioned on either side of the dates. In the center, the text "InterSystems Challenge" is written in a large, bold, blue font, followed by "Innovate with FHIR" in a slightly smaller bold blue font. Below this, the prize funds are listed: "Hackathon Prize Fund 11 000 EUR" and "InterSystems Challenge Prize Fund 3 000 EUR" in bold black text. At the bottom center, there is a white rectangular button with a black border containing the word "REGISTER" in bold black capital letters.

InterSystems Challenge: Innovate with FHIR

Be it IoMT enablement, easier patient engagement or just availability of clinical data for analytical solutions, FHIR, the standard for healthcare data exchange, can drive innovation. Leverage the synthetic data provided in FHIR to improve the insight on patients and their treatment or simply make your solution

for any challenge usable immediately in practice with help of FHIR services to collect and provide the data.

Use one or more InterSystems FHIR services, such as FHIR repository or InterSystems FHIR Transformation Service in the cloud, for your solution and qualify for the InterSystems Prize. InterSystems will provide participants with free access to the services as well as online and onsite technical assistance and mentorship.

At the hackathon, there will be teams of 3 members. If you don't have a team, organizers will carry out a team formation prior to the event. Learn more info about the hackathon at the [website](#).

Looking forward to meeting you online or even offline! Let us know below if you plan to participate!
