HealthShare Patient Index Technical Specialist Certification Exam is now LIVE!

Get certified on HealthShare Patient Index!

Hello Community,

After beta testing the new [HealthShare Patient Index Technical Specialist exam](#), the Certification Team of InterSystems Learning Services has performed the necessary calibration and adjustments to release it to our community. It is now ready for purchase and scheduling in InterSystems [exam catalog](#). Potential candidates can review the [exam topics and the practice questions](#) to help orient them to exam question approaches and content. Passing the exam allows you to claim an electronic certification badge that can be embedded in social media accounts such as LinkedIn.

If you are new to InterSystems Certification, please review our [program pages](#) that include information on [taking exams](#), [exam policies](#), [FAQ](#) and more. Also, check out our [Organizational Certification](#) that can help your organization access valuable business opportunities and establish your organization as a solid provider of InterSystems solutions in our marketplace.

The Certification Team of InterSystems Learning Services is excited about this new exam and we are also looking forward to working with you to create new certifications that can help you advance your career. We are always open to ideas and suggestions at certification@intersystems.com.

Looking forward to celebrating your success,

Shane Nowack - Certification Exam Developer, InterSystems
