# [Video] Poor Man's Analytics with Rich SQL

Hi Community,

New video is already on [InterSystems Developers YouTube](#):

[Poor Man's Analytics with Rich SQL](#)

Who needs shiny drag-and-drop GUIs if you can have a terminal prompt (in dark theme)? Or is it the other way around? In this session, we'll showcase recent additions to InterSystems IRIS SQL that support our expanding analytics offerings, pushing computations as close to the data as possible.

Presenter: [@ Benjamin De Boe](#), Product Manager, InterSystems

Enjoy and stay tuned!
