[Video] Adaptive Analytics in Action: Financial Services Use Case

Hi Developers,

New video is already on [InterSystems Developers YouTube](#):

[Adaptive Analytics in Action: Financial Services Use Case](#)

Explore a set of requirements for a financial services business reporting use case, including historical risk analysis, fiscal P&L reporting across quarters, and portfolio analysis. Watch a demonstration of how InterSystems IRIS and Adaptive Analytics are used to address the reporting and analysis requirements of a chief financial officer.

Presenters:

[@Joe Gallant](#), Manager, Sales Engineer, InterSystems

Wei-Wen Lee, Quantitative Development Manager, Financial Services, InterSystems

Enjoy and stay tuned!
