Persistent Class Property Data type for decimal values precision 5

What is the correct data type for decimal numbers precision 5?

I tried %Numeric with Scale 5, but not worked, see:

```
Class dc.data.health.BreastCancer Extends %Persistent [ SqlRowIdPrivate ]  
{  
    Parameter Scale = 5;  
    /// Mean of distances from center to points on the perimeter  
    Property radiusmean As %Numeric;
```
