CCR Full Release of 6 Angular Pages

Hello CCR Users,

This is a last call for feedback on a few Angular pages in beta before we release them to all CCR Users later this month.

These pages will be released from beta:

- Create CCR
- Clone CCR
- Merge CCRs
- Group Details
- Standard Changes
- Peer Review Docs

Group, Standard Changes and Peer Review Docs are lower traffic pages, so we especially appreciate feedback on those.

Any issues or feedback can be reported here or in your regular support channels. Non beta users can toggle their beta status [here](#) in the CCR app.

Thanks!
