[Video] Using the VS Code Debugger for InterSystems ObjectScript

Hey Developers,

New video is already on [InterSystems Developers YouTube channel](#):

[Using the VS Code Debugger for InterSystems ObjectScript](#)

See how VS Code's debugger for InterSystems ObjectScript helps you step through and inspect code. Learn how to write launch configurations for debugging class methods and production components, and get an overview of the VS Code debugger interface—including the variables section, watch pane, and debug console.

Enjoy and stay tuned!
