Question

Nicholas Dedekind · Mar 2, 2022

C#/.NET XEP - Storing an object array generates a Console Write "Elapsed server write time: [elapsed time]"

Calling InterSystems.XEP.Event.Store(object[]) issues an unnecessary debug console line "Elapsed server write time:..." which is polluting the console window.

Traced it to a IRIS.xepSSNDFinish

Is there any way this can be disabled?

Thanks!
