InterSystems at Hacking Health Camp in France this year!

Hi Developers,

We are excited to announce that InterSystems will be a Platinum sponsor of [Hacking Health Camp](#) - big professional HealthTech conference and hackathon, which will take place in-person in Strasbourg, France on March 25-27, 2022.

On March 8, 2022 [@Guillaume Rongier](#) will carry out a webinar "How FHIR can help you develop your health applications" (Webinar language: French). Register [here](#).

At the hackathon, InterSystems will have a challenge for hackers on using InterSystems FHIR cloud services.

Learn more on [official website](#) and join us in-person in France!

The poster for Hacking Health Camp 2022 features a red background. At the top left, the logo consists of a red cross with arrows pointing left and right, followed by the text 'HACKING HEALTH CAMP' and 'EDITION 2022' below it. The main text in large white letters reads 'L'INNOVATION EN SANTÉ COMMENCE ICI'. Below this, in smaller white text, is '25-27 MARS 2022' and 'HACKINGHEALTH.CAMP'. At the bottom left, it says 'PRODUIT PAR' followed by the 'HEALTH FACTORY' logo (with the tagline 'GO BEYOND IDEAS') and the 'INNOVATE' logo. On the right side, there is a 3D illustration of a doctor in a white coat and stethoscope, wearing a VR headset. He is holding a glowing blue tablet. A white drone is flying above him. To his right is a vertical list of five steps: 1. Empathie, 2. Définition, 3. Idéation, 4. Prototypage, 5. Test. At the bottom right, there is a laptop displaying a colorful abstract graphic.
