Cache Mappers - urgent, US/UK/India

We are urgently looking for senior InterSystems Cache resources with mapping capabilities. Interested candidates will be trained in "crash course" mode to help us build and test maps and work closely with our team in order to progress high quality maps into deployment. Ideally the candidates have a good degree of business analysis skills and are familiar with the order to cash process in supply chain -- the focus is on sales order automation.

Please reach out to arun.samuga@elemica.com if you are interested and if you qualify.

Thank you

Arun
