## [Video] IntegratedML Update from the Field

Hey Community,

Don't miss the latest videos on [InterSystems Developers YouTube channel](#):

[IntegratedML Update from the Field](#)

IntegratedML is a groundbreaking machine learning system for SQL developers, embedded in InterSystems IRIS. Since it became generally available last year, several customers and prospects have been kicking the tires. We'll check in on some of the more interesting use cases and preview what our developers are up to for future releases.

Presenter [@Thomas Dyar](#), Product Specialist, ML/AI, InterSystems

Enjoy and stay tuned!
