Webinar in Spanish: "Exploring the new Embedded Python feature of InterSystems IRIS"

Hi Community,

We're pleased to invite you to the upcoming webinar in Spanish called "[Exploring the new Embedded Python feature of InterSystems IRIS](#)"

Date & Time: March 30, 4:00 PM CEST

Speaker: [@Eduardo Anglada](#), Sales Engineer, InterSystems Iberia

The graphic features a green background with a snake-like skin texture. In the top right corner is the InterSystems Developer Community logo. On the left, it says '↳ WEBINAR'. The main title is 'Explorando las nuevas funcionalidades de IRIS: Python Embebido'. Below the title, it lists the date and time: '30 DE MARZO | 16:00 MADRID (CEST)'. The Python logo is centered at the bottom. On the right, there is a circular portrait of Eduardo Anglada, with his name and title 'Sales Engineer, InterSystems Iberia' below it.

The webinar is aimed at any Python developer or data scientist.

At the webinar, we'll discover the potential of Python, the new programming language added to IRIS. Python is at its peak, increasing its popularity every year. It is now used by +1.5M developers around the world, and has thousands of libraries to perform almost any function needed. It is also the most widely used language in data science.

During the webinar, we'll explain how to create anonymous data and to develop interactive dashboards.

If you are using Python, don't miss it! You'll have no excuses to avoid trying InterSystems IRIS.

[Register today and enjoy!](#)
