Implement Interface to convert EDI X12 to XML and XML to EDI X12 in InterSystems IRIS 2021.1.

Hi Team,

Can you please help me to develop EDI X12 to XML and XML to EDI X12 conversion in IRIS 2021.1 for EDI 204, also known as Motor Carrier Load Tender?

Also, suggest flow for how to achieve this kind of functionality in InterSystems IRIS. If you are able to provide some Videos/Documents on the EDI X12 interface for 204 then it would be very helpful for me.

Thanks,

Harshdeep Acharya
