How should the format and structure of terminology code file look like before uploading it to Terminology registry?

Hi guys, I am not able to load the file codes on the terminology registry, do you know how the structure should look like when uploading terminology codes file under Registry namespace

Below is the error I am getting the below error

Snippet of the converted ICD10.csv file

```
code|description|Namespace
A00|Cholera|HSREGISTRY
A00.0|Cholera
A00.1|Cholera
A00.9|Cholera
```
