InterSystems FHIR Server (FHIRaaS) API Error

Hi All,

Since yesterday I am getting below error while calling InterSystems FHIR Server (FHIRaaS) API

portal.live.isccloud.io/deployments/ti4y8e5s0mvk/apidevelopment

Curl	
<pre>curl -X 'GET' \ 'https://fhir.ti4y8e5s0mvk.static-test-account.isccloud.io/Patient' \ -H 'accept: application/fhir+json' \ -H 'x-api-key: KC7fwMiq9B6UngDxFnYoxEfFLR1znFB2KsnARlu5'</pre>	
Request URL	
<pre>https://fhir.ti4y8e5s0mvk.static-test-account.isccloud.io/Patient</pre>	
Server response	
Code	Details
Undocumented	Failed to fetch. Possible Reasons: • CORS • Network Failure • URL scheme must be "http" or "https" for CORS request.

Looking Forward

Thanks
