need reporting tool idea used for cache database

Hi All,

I am looking for a reporting tool (Analytics purpose) which can be built using cache object script/MUMPS. Basically my requirement is to find a tool where I can implement cache code to report data for my application.

I am unaware of DeepSee and how it works. Please assist for the same.

[#Analytics](#) [#InterSystems Reports \(Logi\)](#) [#Caché](#) [#InterSystems IRIS](#) [#InterSystems IRIS BI \(DeepSee\)](#)

Product version: IRIS 2022.1
