Developers Random Coffee - join our new networking activity on Global Masters

Hi Developers!

We're happy to announce the first **Developers Random Coffee** launched on Global Masters. The idea is to create new impactful connections between Developer Community members.

The mechanic is simple:

You will receive a direct message on Global Masters with the name of your Random Coffee partner and link to his/her GM profile.

Your task is to message your partner and schedule 15-min online call to get to know each other.

Don't forget to take a screenshot of the online call meeting - you will be able to upload it in the challenge and get 500 bonus points on Global Masters!

Ready to join Random Coffee in July? Complete >> [this challenge](#) << till July 19!

Check our schedule for July Random Coffee below:

14-19 July - we receive applications of participants;

19-21 July expect the direct message on Global Masters with your Random Coffee partner's name;

21-31 July - schedule and join the online meeting with your partner. Take a screenshot to get bonus points;

By August 10 - upload a screenshot from your meeting in a dedicated challenge and get 500 bonus points!

This is going to be a monthly activity. You can skip a particular month and join Random Coffee next time.

Ideas / thoughts / feedback? Feel free to share below in the comments.

Let's stay connected!
