Webterminal broken :(

Hi all,

I've just update the version of WebTerminal using the link, but now it doesn't work.

When call to /terminal is displaying the following error:

```
{
  "errors": [ {
    "code": 5002,
    "domain": "%ObjectErrors",
    "error": "ERROR #5002: Error de cache: <INVALID OREF>zWrite+5^WebTerminal.
StaticContent.1",
    "id": "ObjectScriptError",
    "params": [ "<INVALID OREF>zWrite+5^WebTerminal.StaticContent.1"
  ]
},
  "summary": "ERROR #5002: Error de cache: <INVALID OREF>zWrite+5^WebTerminal.Static
Content.1"
}
```

Anyone has had the same issue and has fixed it?

Best regards,
Kurro
