Trakcare Report development Using Object Script

Is there any full featured tutorial available for doing the report development using object script in the Trakcare system for a starter developer(For Trakcare)?

Once we developed the report and then how we can test and add this report to our existing Trakcare.

[#ObjectScript](#) [#TrakCare](#)

Product version: IRIS 2021.2

\$ZV: 2021.7 MECA ADHOC3 Build #18
