## XSLT Samples

I'm trying to become familiar with XSLT options in the latest version of IRIS. The documentation here <https://docs.intersystems.com/irisforhealth20221/csp/docbook/DocBook.UI....> has the following statement:

InterSystems IRIS provides the following additional examples:

- For XSLT 1.0, see the Example(), Example2(), and other methods in [%XML.XSLT.Transformer](#).
- For XSLT 2.0, see the class XSLT2.Examples in the SAMPLES namespace.

I don't find any reference to XSLT examples in the InterSystems GitHub. <https://github.com/intersystems>

Does anyone know if the XSLT2 example file is available somewhere or is the documentation simply out of date?

Thanks,

Lesley
