Developer Community Release, July 2022

Welcome to the July'22 Community Release!

We ' ve recently made some interesting changes to your experience in the InterSystems Community:

- notifications like in social networks

- improved subscription setting

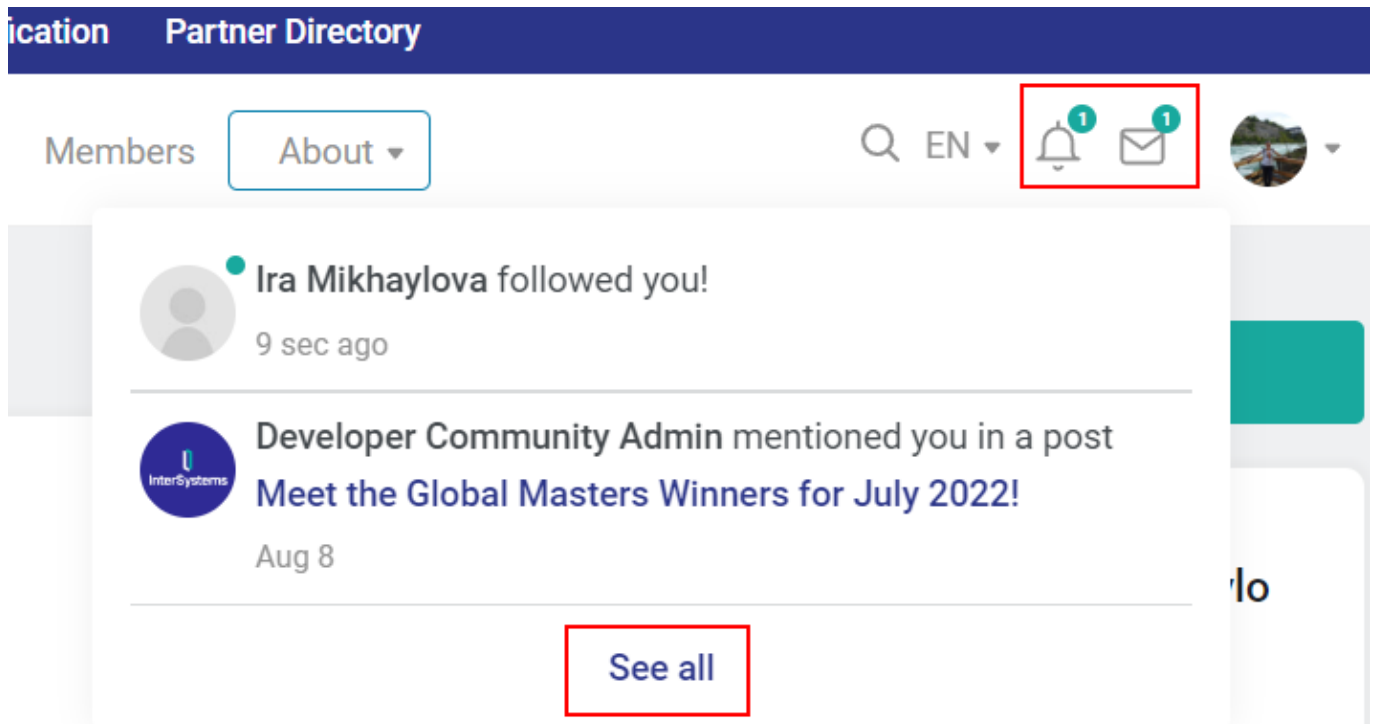

- brand new "About us" page

- friendlier "Members" page

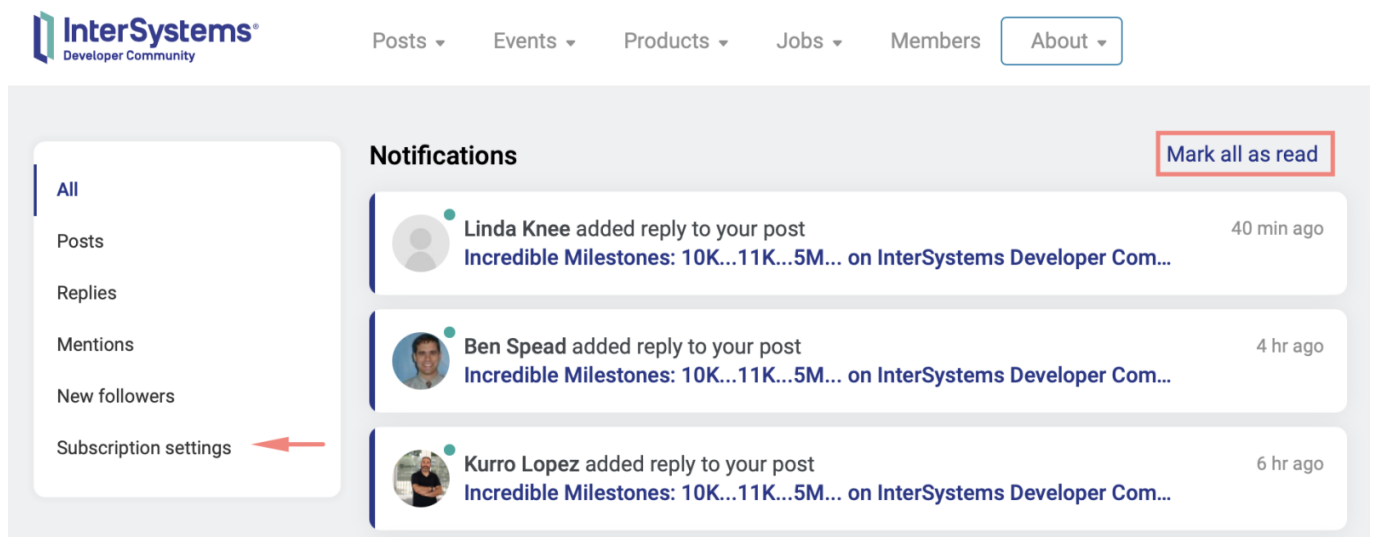

Let's have a closer look at all these improvements!

NOTIFICATIONS

From now on, you will be able to see that you have new notifications in the top right corner of the page near your profile picture. Just click on the bell and you will get a drop-down menu of all your recent notifications from which you can go to the page with details:

By clicking on the "See all" link you will be redirected to a page where you can see all your notifications:

From this page, you can "Mark all as read" or follow the link to the page that generated the notification. And manage your subscription settings.

SUBSCRIPTIONS

We've changed the design of the Subscriptions page. Hopefully, it is more user-friendly now 😊

You can choose which notifications you receive from the Developer Community, whether you receive them via email or through the website. You can find it in the "Subscriptions" section of your account.

ABOUT US

We've [already mentioned](#) that we created a brand new "About us" page. But it's as cute as a button, so it's worth mentioning once more

You can find it in the top menu, in the About section --> About us:

MEMBERS

And another page we've tweaked for your convenience is the "Members" page. We've added a new "Latest activity" column. And, of course, don't forget that you can sort by any column just by clicking on its name.

Users ▾	Posts	Replies	Views	Accepted answers	Likes	Latest activity	Joined

That's it for now! Hope you approve of all our improvements!

See you next time with more news!
