Looking for new opportunities

Looking for a new position working on InterSystems and Interface/Ensemble development/implementation, engine migration/upgrade, custom interfaces, message format conversions, or ETL.

Ideally looking for part-time and corp-to-corp.

Profile:

- More than 15 years in healthcare industry, concentrated in HL7 integration with extensive experience in interface development with InterSystems IRIS for Health, Cerner OpenEngine, Openlink and Mirth.
- Strong emphasis in Microsoft technologies such as Visual Basic .NET, SQL Server as well as excellent Object-Script skills and good understanding of XML, JSON, and FHIR.
- Experience tackling and resolving problems head-on and able to learn new technologies on the run.
