Future updates for InterSystems IRIS, IRIS for Health 2022.2 Community Editions developer preview 7

In addition to the new supported platforms (Ubuntu 22.04 LTS and RHEL 9), Community Edition limits will soon be updated to:

- Maximum cores: 20
- Maximum connections: 8

NOTE: These limits aren't available yet for the latest developer preview build 2022.2.0.322.0. It's expected to the Developer Preview 7, to be released by next week.
