Meet Tete Zhang - New Developer Community Moderator!

Hi Community,

We're pleased to welcome @ Tete Zhang as our new Chinese Moderator in the Developer Community Team!

Let's greet @ Tete Zhang with big applause and take a closer look at her bio!

@ Tete Zhang works as a Senior Support Specialist of WRC, InterSystems China team.

Here is some info about @ Tete Zhang:

I joined InterSystems as an intern in the summer of 2015 and worked full-time as a support engineer in 2016. Since then, I have been working at the North America Support Center of InterSystems' Worldwide Response Center (WRC) for six years. In summer 2022, I decided to transfer to the InterSystems Beijing office to contribute more to our growing market in China.

I am so excited to meet all of you in the community. I hope we can work together to create a more wonderful community.

WARM WELCOME!

Thank you and congratulations, @ Tete Zhang.

Hope you will be a great Moderator! We wish you a great journey in DC!
