About [@Mario.Sanchez-Macias](#)

- 6 comments on DC
- 1 accepted answer
- Bronze Master of Answers badge for 10 accepted answers

Congratulations, Mario!

" - How long are you in this profession/industry?

I have worked for over 25 years in IT as a developer, project manager and technology architect. However, I have spent most of the time helping our customers in Support by solving problems and building long-term relationships with key customers.

- How long have you been working with InterSystems technology?

Almost 20 years!

- What are your key areas of expertise?

I am more specialized in Systems and Performance, but I also like writing applications. i.e., I know a little bit of everything ;-)

- Other facts about you:

I am from Madrid but have been living in several places (Barcelona and Dublin). One of my hobbies is playing table tennis.

About [@Lucas Enard](#)

- 5 articles and 7 comments on DC
- 6 new applications on Open Exchange
- Best Practices Author Badge for the first article with Best Practices tag
- Silver Open Exchange Developer Badge for 10 Apps on OEX
- Blogger Badge for 10 articles on DC
- Popular Writer Badge for 750 views of his post on Developer Community

Congratulations, Lucas! Thank you for sharing your experience and ideas!

"I am a French student that joined an Engineering school after a preparatory class in theoretical mathematics and physic. For my fourth year of study I discovered InterSystems and asked them to be part of their team as I was sure I would learn so much with them. Therefore, I found an internship as a Sales Engineer at InterSystems France (04/2022 - 08/2022), this was a really great experience and I would like to thank the French team for their hard work and the way the helped me integrate the team.

Nowadays and I'm currently starting my last year (The fifth year) of my engineering studies at ESILV Paris, where I'm specialized in IT, Data Science and Artificial Intelligence. To start the scholar year, I'll be doing an academical exchange to Prague in the Czech Republic for 6 months starting this Wednesday (09/2022 - 02/2023).

I'm passionate about IT and was amazed by InterSystems' technologies and really grateful to be able to work on them and possibly work on them in the future as well. In my free time I love to cook, play video games with friends or just discover new things about IT on YouTube or Reddit.

I'm currently looking for an internship of 6 months in DataScience, AI or IT in general to end my cursus, when I return from Prague in March 2023."
