DC Analytics Open Application

InterSystems Developer Community analytics. Project made with InterSystems IRIS BI (DeepSee), Power BI and Logi Report Designer to visualize and analyze members, articles, questions, answers, views and other pieces of content and activity on [InterSystems Developer Community](#).

You can see your own activity, articles and questions. Track how your contribution changes developer community.

Analyse statistics about you and your friends using IRIS BI, Adaptive Analytics, InterSystems Reports, Tableau and Power BI.

This project contains pre-configured IRIS and Atscale deployment in Docker containers and project files for BI systems.

More deatiled information in README of corresponding appllication.

This project also deployed online and you can check it [here](#).
