What've we been up to this season?

Hey Community,

Summer (or winter 🍷) is over and it's time to reflect on what's been going on here, in the Developer Community... To make it easier to follow the main novelties and news we've decided to create seasonal catching-up posts!

What does it mean? Read on!

Basically, we're going to introduce a new series of posts where we will gather the most scintillating, mind-boggling, not-to-be-missed news and events that happened during the previous season.

This way, you will be able to follow the main events that constitute the beating heart of the Community at a glance. And if you see that you've missed something when we posted it, you will be able to get back on track pretty easily!

Stay tuned for the summer catch-up announcement ;)
