[Off-Topic] What films or series would you recommend which are or not related to computers?

Hello,

Thanks for reading:

I was wondering if you would recommend or like any film?

For example there are some films related to computers like:

Kimi (stylized as KIMI) is a 2022 American [thriller film](#) directed by [Steven Soderbergh](#) and written and produced by [David Koepp](#). The film stars [Zoë Kravitz](#). It was released on [HBO Max](#) on February 10, 2022, to generally positive reviews. [https://en.wikipedia.org/wiki/Kimi_\(film\)](https://en.wikipedia.org/wiki/Kimi_(film))

What genres of films or series do you love?

Thanks for replying.

Greetings.
