InterSystems IRIS, IRIS for Health, & HealthShare Health Connect 2022.2 developer preview 9 is published

This is the ninth in a series of releases that are part of the **developer preview program for 2022.2** *Future preview releases are expected to be updated biweekly and we will add features as they are ready. Please* **share your feedback** *through the* [Developer Community](#) *so we can build a better product together.*

As usual, CD releases come with classic installation packages for all supported platforms, as well as container images in Docker container format. For a complete list, refer to the [Supported Platforms document](#).

Installation packages and preview keys are available from the WRC's [preview download site](#) *or through the* [evaluation services website](#) *(use the flag "Show Preview Software" to get access to the 2022.2).*

💡

As of now, ARM and Intel platform containers are published under the same name. So on an Intel machine "docker pull containers.intersystems.com/intersystems/iris:1111.2.3.456.0" will return the intel image, on an ARM machine that same pull will return the ARM image automatically, without needing to have a special .../iris-arm image.

Container images for the **Enterprise Editions** *of InterSystems IRIS and IRIS for Health and all corresponding components are available from the* [InterSystems Container Registry](#) *using the following commands:*

- docker pull containers.intersystems.com/intersystems/iris:2022.2.0.356.0
- docker pull containers.intersystems.com/intersystems/irishealth:2022.2.0.356.0
- docker pull containers.intersystems.com/intersystems/iris-arm64:2022.2.0.356.0
- docker pull containers.intersystems.com/intersystems/irishealth-arm64:2022.2.0.356.0

Container images for the **Community Edition** *can also be pulled from the InterSystems Container Registry using the following commands:*

- docker pull containers.intersystems.com/intersystems/iris-community:2022.2.0.356.0
- docker pull containers.intersystems.com/intersystems/irishealth-community:2022.2.0.356.0
- docker pull containers.intersystems.com/intersystems/iris-community-arm64:2022.2.0.356.0
- docker pull containers.intersystems.com/intersystems/irishealth-community-arm64:2022.2.0.356.0

For a full list of the available images, please refer to [the ICR documentation](#). *Alternatively, tarball versions of all container images are available via the WRC's* [preview download site](#).

The build number for this developer preview release is *2022.2.0.356.0.*
